

## Here's how to make it

Print page two of this pdf onto some A4 paper or card. Remember, the nicer your paper, the lovelier your card will look.

Place the printed side of the paper face down, then fold in half along the short side. Then fold once more, again along the (new) short side.

Embellish with your own words – don't be shy but do be mysterious. Finally, pop it in a gorgeous envelope and send it to the one you love.
